ABOUT ME

Results-oriented B.Tech student with a strong interest in software development and programming. Possesses basic knowledge of Java and Python, along with problem-solving and communication skills. Seeking an entry-level software engineering opportunity where I can apply my technical knowledge, learn from experienced professionals, and contribute to organizational goals.

EDUCATION

2023-2027

GNIT

Bachelor of Technology
Currently pursuing a Bachelor of Technology (B.Tech) with a strong foundation in computer science and programming concepts. Gained basic knowledge of Java, Python, and software development fundamentals through academic coursework and practical assignments. Developed analytical, problem-solving, and logical thinking skills by working on technical projects and coding exercises. Passionate about learning emerging technologies and continuously improving technical expertise. Seeking an opportunity to apply academic knowledge and grow as an IT professional in a dynamic organization.

SKILLS

Technical Skills

- Java (Basic)
- Python (Basic)
- Object-Oriented Programming (OOP)
- Basic Data Structures

Soft Skills

- Communication Skills
- Teamwork & Collaboration
- Quick Learner
- Adaptability
- Time Management
- Self-Motivated

Development Tools

- Visual Studio Code

Core Competencies

- Problem Solving
- Logical Thinking
- Debugging (Basic)
- Analytical Skills

Areas of Interest

- Software Development
- Java Programming
- Python Programming

HOBBIES

- Coding
- Reading Books
- Listening to Music
